

IDEAS

Data:

(EC)
- Value → energy consumption
→ energy production
(EP)

A Renewable/Non-Renewable - categorical
B by state - categorical - Map
C by time - ordinal
D by Industry - categorical
E by Fuel - categorical

Sheet ①

Yushan Lin

Date: 10/10/2024

Know how energy used

Sankey/Flow ①

category

②

simple

Heat map?

Want to know trend

③

what Region ⑤

world wide?

geo-information - Bin

⑥ scatter

more type

FILTER

① Sankey/Flow

Not really suitable in this topic, since the main goal is to show consumption. Not intuitive to use.

② Tree map

same problem with ①. Not intuitive to see.

CATEGORISE

Trend - ③
- ④
- ⑤
- ⑥

Map

- B & C
→ ⑤ → ⑥

Category

- A, D, E
• Heat map • Pie
• comparison bar • Radar

COMBINE & REFINE

⑤ + ⑥

Showing Both Choropleth and Bin

③ + ④

can show both total Trend and know category

LAYOUT

Title:
Australia Energy
Consumption

Author: Yushan Lin

Date: 10/10/2024

Sheet: 2

Task: FIT 3179

Operations:

button

User can adjust the bar
to change the time show
for bubble

- Tree map
→ click on a part
to show even smaller
category

Focus

Color - Retail industry

↳ Sub-cat → Things they sale

User can select only 1 or up to all
category

☒ C1 ☒ C2 ☒ C3

☐ C1 ☐ C2 ☐ C3

- This is able to
tell story of
where people will spend
money on,

But There is lack of more
comparison graph

- Too many text

LAYOUT

Australian
Consumption
Author: Yashan Lin
Date: 10/10/2024
Sheet: 3

Operation

the map and
the line graph
are both interactive
select time on
any graph will
change time on other

Filter category

FOCUS

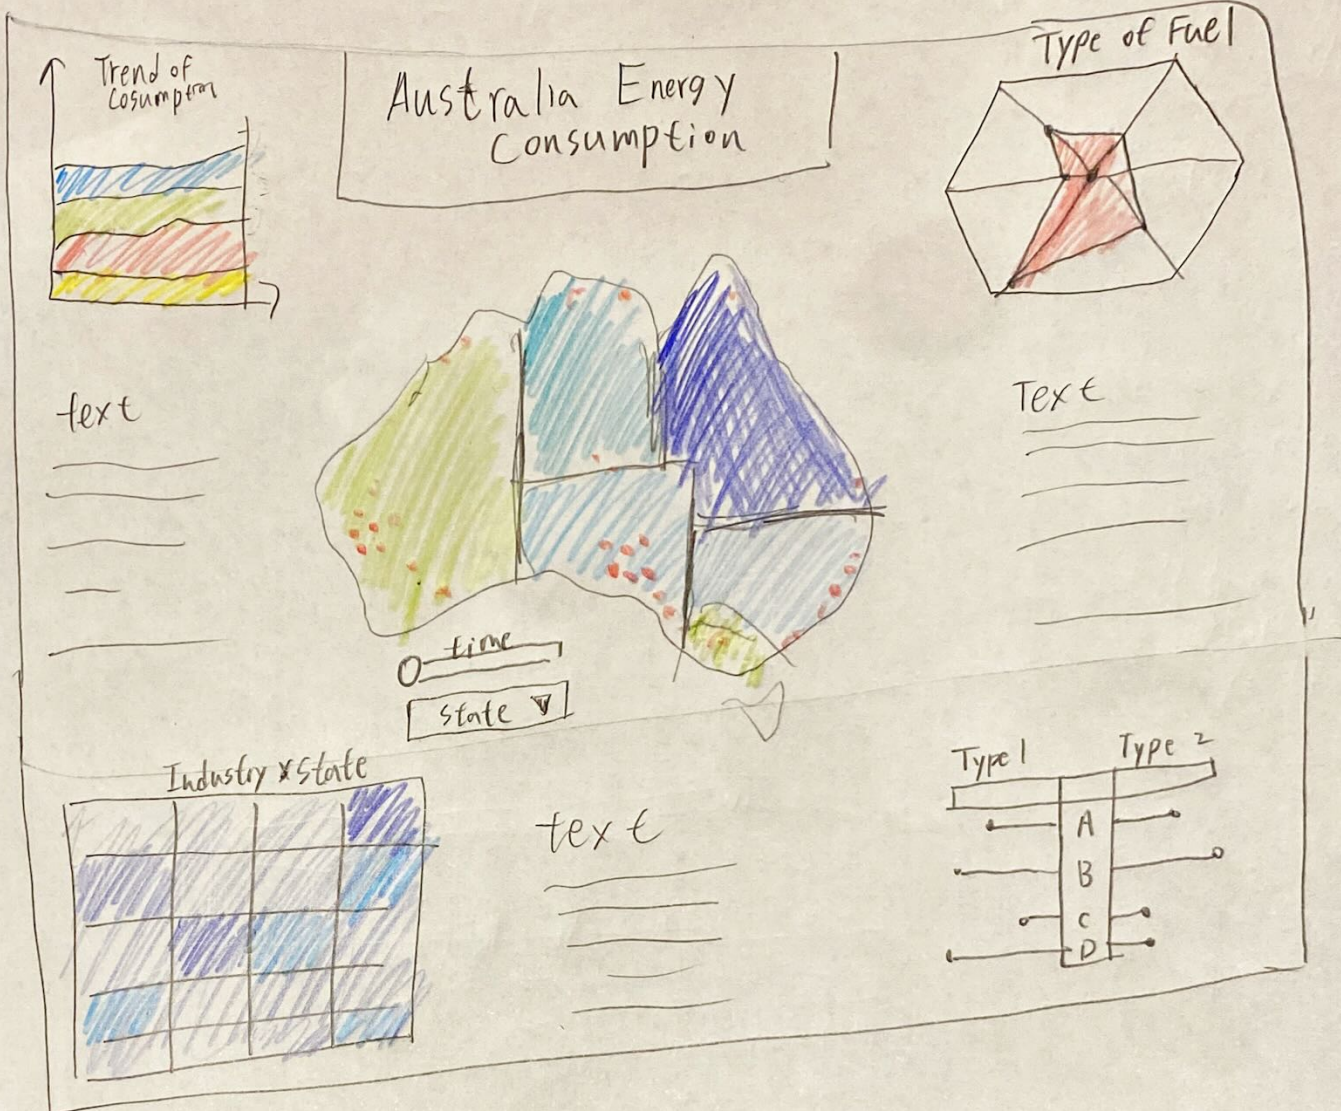

show both using and overall time trend
all graph has time slider

- Will Using too much space on the map?
- is the text not enough?
- the text should be on the side instead below?

LAYOUT

Sheet 4

Title: Australian Energy Consumption
Author: Yushan Lin
Date: 10/10/2024

Operation

- user can click on each area of state to select the state
↳ then all other map will also ~~interact~~ filter the data
- time slider will also interact to all graph
- Detail can be seen use tooltips

Focus

- this is to focus on different perspective of data, using the map

each will show the geo-information of usage using Bin

Question

- Is this too difficult to make?
- Maybe the data cannot filter like this

LAYOUT — From sheet 3 with modification

Title: Australia Energy Consumption

Author: Yushan

Sheet: 5

Date: 10/10/2024

Operation

- each chart are Independent to interact to keep more operational freedom for user

- each of the Visualisation has a time slider and a filter

Focus

- this is to give user to look at each piece of data one by one, guide them to conclusion therefore no specific focus
- Map and line graph are the most general give high level view, then break down to more detail perceptive
